

# leafy vegetables

- Increases vigour of root and shoot growth
- Improves nutrient uptake
- Increases resistance to drought
- Increases resistance to waterlogged conditions
- Improved size and higher yields

Kelpak is a natural liquid seaweed extract manufactured from the brown kelp *Ecklonia maxima*, found on the west coast of South Africa. Produced using a cold cellular burst extraction method that preserves its delicate compounds, Kelpak significantly improves marketable yield and quality in vegetables.

**A global leader in seaweed products for over 48 years**

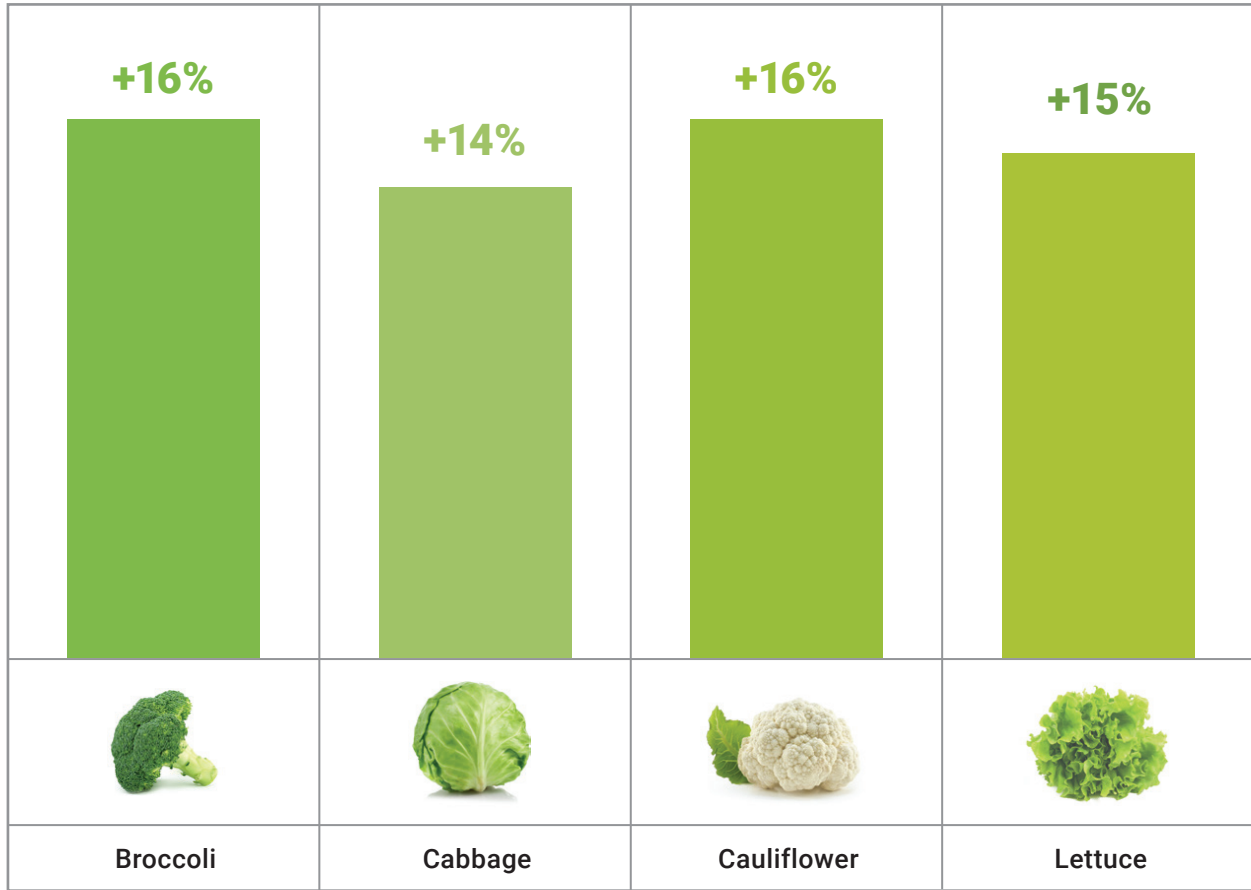

kelpak
