

# strawberries

- Improved rooting
- Consistent fruit size
- More marketable fruit
- Extended harvesting
- Better yields
- Increased returns

Kelpak is a natural liquid seaweed extract manufactured from the brown kelp *Ecklonia maxima*, found on the west coast of South Africa. Produced using a cold cellular burst extraction method that preserves its delicate compounds, Kelpak significantly improves marketable yield and quality in strawberries.

**A global leader in seaweed products for over 48 years**
